

## Canada And Its Future

With the celebration of Dominion Day, Canada completed the fifty-third year of Confederation and was launched on another year of effort and, it is to be hoped, large national achievement. Judging by some standards the growth and development of Canada during the first half century since Confederation became an accomplished fact has been slow; measured by other standards it has been rapid. In all material respects it has been solid and the foundations laid permanent and good.

Those who incline to the view that our growth has been too slow, and who point to the difficulty of obtaining immigration, and even of retaining native born Canadians at home, resulting in a present population of but little more than eight millions of people, should not overlook the fact that geographically this country is so located and divided that it did not lend itself to great growth in population in the earlier years. Great natural barriers had to be overcome, and enormous expenditures made in order to lay the foundations upon which to rear a nation. Much of this work has now been accomplished, and the next fifty years should record developments which will place this country in the front rank of the world's great commonwealths.

Even as recently as fifteen years ago, the great Provinces of Saskatchewan and Alberta, with their present population of approximately 1,500,000 had not been organized, while Manitoba was still in the pioneer stage of development, and the population of British Columbia were but dimly guessed at. Fifteen years may be quite a span in a man's life, but it is but as a fleeting minute in the history of a nation, and the 2,500,000 people now west of the Great Lakes gives promise of a wonderful future.

Since Confederation, Canada has accomplished some amazing things in a material sense. Always a great agricultural country, it has become a great manufacturing country, an important financial country, and now it is undoubtedly on the eve of a truly remarkable development of its enormous wealth of natural resources, a development which is to be made possible because of the growing needs of the world for those things which Canada can supply, and the fact that this country now enjoys the financial means to carry on such development.

With its great railway systems, the development of its waterways, the creation of a really creditable and rapidly growing merchant marine, its strong financial institutions, all that Canada now requires to make good the prophecy "the twentieth century belongs to Canada" is more people to engage in productive enterprises, and the cultivation of a truly national spirit which will forever lay at rest the old and bitter racial and religious

antagonisms which have so often retarded our growth and divided our people into hostile camps.

While in some respects the Great War served to re-awaken these old antagonisms and create new divisions, Canada's splendid participation in the great world struggle for freedom has also served to arouse a real national spirit. Canada found itself and discovered its soul in that bitter struggle. The nations of the world also discovered Canada. The bitter and narrow political partisanship of former years has been destroyed, and Canadians are now determined to make use of their material strength and resources to develop those other things which make for the health, happiness, contentment and uplift of the whole nation, and the people who themselves constitute the nation.

Canada has entered upon its fifty-fourth year with a minimum of industrial unrest prevailing in its midst, and with the brightest of prospects for a bountiful yield from its fertile fields. It has succeeded in passing through the first two years of the so-called reconstruction period safely and with enhanced credit; its army of returning soldiers have been rehabilitated in civilian life; its trade and commerce is expanding; most important of all its people are more deeply interested than ever before in raising the standard of education, of creating better health conditions, of lifting the political life of the country on to a higher plane.

Canada has great opportunities and a great future before it. But it calls for the best in every individual Canadian to realize these things in their own life. They demand a broad spirit of tolerance, a sympathetic appreciation of the rights and opinions of others, and hard work along productive lines by all. If such a spirit prevails, and is intensively cultivated, Canada is on the highroad to true greatness and abounding prosperity.

**Asthma Victims.** The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

## A Wonderful Discovery Cures Cataract Permanently

Formerly doctors prescribed stomach treatment for Cataract and Bronchitis. They seldom cured and cataract has become a national disease. Today the advanced physician fights Cataract by medication. He fills the lungs, nose and throat with the antiseptic vapor of Catarhoxone. It is easy then for Catarhoxone to cure. It contains the essence of pure pine balsam, reaches all the germs and destroys them. Every case of Cataract, Bronchitis and Croup Throat can be cured by Catarhoxone. The dollar outfit lasts two months and is guaranteed to cure; small size 50¢ trial size 25¢; all dealers or Catarhoxone Co., Kingston, Ont.

## Ought to Have Own Navy

Hero of Kut so Advises Canada in Address

"If you had started twenty years ago you would have had a respectable navy today." These were the significant words of Major-General Sir Charles Townshend, the hero of Kut, in a short address before delegates to the Dominion Council of the Navy League. He further expressed the opinion that the time has arrived when Canada should have her own fleet of ships as an instrument of self-protection and an aid to the Empire in time of war.

It was an expedient, he declared, that the Dominion of Canada should maintain her own navy. "The whole crux of the situation in Canada today is that she should create a fleet of her own," he said.

## HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cranky and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, soothe the stomach, and thus drive out constipation, colic, indigestion, break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Pierrefille, Que., writes:—"Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by many dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

"I don't see why you stick to Dr. Torpor's church," chattered Mr. Philippe. "He's such a poky old preacher."

"He's just that," agreed her friend, Mrs. Fortysome, "but then, you know, the light from that rose window shines right over my pew and makes me look not more than 20 years old."

## Manitoba Testing Wireless Telephone

Probable That Government Will Assume Control Over This Communication

Experiments conducted at the request of the Manitoba government with wireless telephone apparatus between Winnipeg and Portage La Prairie, 80 miles away, have been successfully concluded and a second step in the experiments is about to be taken, when conversations will be attempted between Winnipeg and Fort William, a distance of nearly 400 miles. The experiments are being taken with a view to testing out a proposed system of wireless to be installed in northern Manitoba.

Mining districts and fur marketing centers are far scattered and sparsely settled. Land wires are costly to install and to maintain owing to falling trees in the bush country. It is proposed to establish some dozen stations at central points in as many districts of the northland, and these will in turn be given communication with the outside by a station of larger power at The Pas, which will work with another similar station at Swan River, 250 miles south of the former place, and in the well settled portion of the province.

Should the wireless telephony prove successful it is probable that the Manitoba government will assume control over this form of communication, just as it has the telephones, and that the wireless will be incorporated in the government telephones system. In this way the government may be able to give service to many isolated points, notably in mining sections east of Lake Winnipeg which cannot now be reached by land wires.

WEDNESDAY, JUNE 30, 1920

The retirement of Sir Robert Borden, from the leadership of the government has caused no surprise, and while a great many people have damned him for what his colleagues have done, or have not done, in justice to the man it has got to be admitted that his statesmanship and handling of Canadian affairs in general during the last few strenuous years has been masterly and his Liberal opponents in the press say: "His record will give him an honored place in the history of Canada." No other premier had as many vital issues put up to them during their term of office as Sir Robert has had to contend with during his, and like nearly all the great men who were at the head of affairs during the great war, he is paying the penalty of his hard work through broken down health. It is to be hoped that Canada has not lost his services altogether, and that he may serve this country in some position less strenuous.

**ARCHIE P. McKISHNIE**

(Continued.)  
Nineteen years ago, Daniel McTavish, or Big McTavish, as he was commonly called on account of his great size, had settled in this spot with the determination of making it a home for himself and wife. The shadowy bushland appealed to him. He set to work with an axe and built a home. Shortly after it was finished a little McTavish was ushered into the world. Meanwhile, two other families had taken up claims nearby. These were Jim Peeler and Andre Declute, and with their wives came over to help name the baby.

Naming a baby in those old days was just as hard as it is in these. Each person had a particular name to fix upon the new arrival. Peeler wanted to name him Wolfe, after a famous general he had heard of, but his wife protested on the grounds that the government was offering a bounty for wolves and somebody might get mixed up and "kill him off."

Mrs. Declute wanted to call the boy after some Bible hero. Moses, she thought, would be a good name. He looked just like Moses must have looked at his age, she said.

"I'll tell you how we'll decide," said Andre-Declute, after the debate had lasted some three hours. "We'll all have a different name we want to hitch to the youngster. I move that we let Mac here write out three names on a piece of paper and we'll pin it to a tree and let the little chap decide for himself."

"How?" asked the others.  
"Well, after we've tucked up the paper somebody'll hold a rifle and we will let the baby pull the trigger. The name the ball comes nearest to we'll choose. What do you say?"  
Everybody thought it a capital plan. The baby's mother held the light rifle and pressed the baby's finger on the trigger. The little Bushwhacker did not so much as blink at the report.

The bullet bored one of the names through the letter O, and the name was BOY.

"That's the one I picked on," grinned Declute, "and it's a good one."

So the baby was called Boy.

Others came to Bushwhacker's Place and took up homesteads. One, Bill Paisley, drifted in from nobody knew where, and started clearing in near to Declute's place. He was a tall, angular young man, with blue eyes which laughed all the time, and a firm jaw with muscles that had been toughened by toilsome clearing. His hair was long and inclined to curl, and altogether he was a hearty, fresh, big piece of manhood. He could swing an axe with any man on Bushwhacker's Place, and cut a Turkey's comb chain at eighty yards with his smooth-bore. He needed no other recommendations. The neighbors had a "bee" and helped Paisley up with his house. The Bushwhacker's

loved bees and "changin' works," for he brought them together. And although on account of much talking, one man could have accomplished more alone than three could at a bee there was no hurry, and, as Peeler said "a good visit best work all hollow, anyway." Whiskey was plentiful and a jug of it could always be seen adorning a stump when a bee or "raisin'" was in progress. But because it was good, cheap and as welcome as the flowers of the woodland, nobody drank very much of it. Maybe it would be a "horn all 'way round" after work was done or a "night-cap" after the evening dance was over; for, be it known, no bee or raising was considered complete without a dance in the evening. Every Bushwhacker's home had a jug of whiskey in it—usually under the log—a dog on the doorstep, and sheep, pigs and cattle in the barnyard. These barnyards had tall rail fences around them. In the winter months the wolves sometimes tried to scale the fences, and bears tried to dig beneath them. Then the dog would bark and the man would come out with his long brown rifle, and besides bear-scar for breakfast next morning there would be a pelt for the Bushwhacker.

And so the years passed, and the Bushwhackers lived their simple, happy lives and found life good. Little Bushwhackers were born, named, and set free to roam and enjoy the wild as they wished. Sometimes one of them might stray away too far into the big forest, and then there would be a hunt and the little stragglers would be brought safely back.

When the youngsters were old enough to be taught reading and writing their mothers washed their faces with soft home-made soap and sent them over to "Big Mac's" for their lessons.

Mrs. McTavish — a self-educated woman — found great pleasure in teaching these children. They were quick to learn and slow to lose what they were taught. As Peeler put it "every child should know how to read and write and do sums," so the children of the bush were not allowed to grow up in ignorance.

Bill Paisley, also, took a hand in instructing the youngsters of Bushwhacker's Place. He taught the boys how to shoot and handle a rifle. It was quite necessary for one who shot to shoot well, as ball and powder were costly commodities. He took the lads on long tramps through the woods when the autumn glow was on the trees. He showed them how to watch a deer-run and taught them how to imitate the wild turkey call.

Boy McTavish was his constant companion, and as a result Boy came to know the wild things of bush and water well. He knew the haunts of the brown and black bears, the gray wolves, and the wary deer. He knew just what part of the clear, deep creek the gambel bass or great muskellunge would be lying in wait for some unsuspecting minnow, and could land the biggest and gamiest of them, too. Many a glorious summer morning's sport did he have drifting down the creek in his canoe and out on the white bosom of the Round Eye Bay, trolling for bass. Boy loved these beautiful mornings of the summer season when the air was alive with birds and their voices. Through the mist arising from the face of the water he would watch the great bass leap, here and there, a flash of green and gray high in the air, and tumble back to glide and right and dart upon the shiners—very innocent minnow-fish these, swimming happily out of school. There would be a shower of little silvery bodies as the minnows in sheer terror leaped from the water before the greedy cannibal's rush, and Boy's hook, with a shiner impaled upon it, would alight amid the commotion, and there would come a tug at his line that made the strong, sailing red head and dip.

Many a spring of great, beautiful bass did he catch on this creek close beside his home, sometimes with Paisley, sometimes with Gloss, sometimes alone.

Boy loved these early mornings of his dominion of marsh and wood; for Round Eye was very beautiful with morning light upon her face, as up above the pine-studded Point the lights of dawn came bounding. With that dawn, self-willed almost as its arrows of crimson, the bold, barbed ducks came dipping and soaring, to settle and feed in the rich rice-beds of the bay.

## Stops Stomach Gas Prevents Fermentation Aids Digestion

If fermentation of food in the stomach can be prevented, you go a long way towards stopping the most frequent ailment of the day. Doctors who have studied the formula of Dr. Hamilton's Pills say it would be difficult to find a remedy better adapted to stomach ailments. After once using Dr. Hamilton's Pills the stomach is cleared of the sour, fermenting matter that causes gas, heartburn, indigestion and headaches. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills tone up the liver, kidneys and stomach.

It's really wonderful the improvement in appetite, in complexion, in general well-being that results directly from the use of Dr. Hamilton's Pills. They stop dizziness, faintness and swelling of the stomach, they correct constipation, bad dreams and listless slowness to the eyes, nothing can compare with Dr. Hamilton's Pills. Sold everywhere in 25c. boxes.

ving, to settle and feed in the rich rice-beds of the bay.

Along the marshes, blue-winged teal would hiss and whistle in their irregular flight. Earliest of all the wild-ducks, they came when the time was between darkness and daylight. Next came the Macks and greys, quacking their way noisily along the shores. High above them a long, dark line would whistle into view and pass onward with the speed of a cloud-shadow. These were red-heads, newly arrived from the south. Still swift of wing, though weary, they would follow on until their leader called a halt. Now lost against the slate sky; now swooping into view against a splash of crimson, they would turn and flash about the farther shore, sinking lower with diminished speed as they passed an outstretching point of land. A number of their kind arrived the night before would be feeding and resting there. Onward the line would pass, and then turning, drop down slowly and the ducks would settle among their fellows with muffled spats and heads facing the wind.

## Vital Statistics Low

Large Families Going Out of Fashion in Young Province

The province of Saskatchewan, although young and still very much in the pioneer stage, with a mixed population gathering from all quarters of the globe and including hundreds of thousands from Central and Southern Europe, is not doing its duty by the nation, according to statistician of the Bureau of Vital Statistics. Large families are going out of fashion, he says, according to his records of 1917 and 1918. Registrations reveal that in the 21,695 families in the province in which a birth was registered in 1918, the average number of children to a family was 3.7. After making allowance for the death rate, the average number is below the standard required to maintain the population, and if immigration should cease, there would be an actual decrease in population.

## ULSTER RIOTS MAY SPREAD OVER IRELAND

Believe That Londonderry Trouble  
May Have Far-Reaching  
Effect

LONDON.—Writing of the Londonderry riots, the Belfast correspondent of the London "Times" wires:

"The gravest aspect of the present position is that Londonderry may speedily become a mere incident in a much larger setting. For three days rumors have stated that Sinn Féiners from the northwest were concentrating for an attack on the city—and it is not improbable.

"For the first time very large bodies of lawless elements in that city possess deadly weapons, and plenty of ammunition; for the first time the whole city is involved, and not merely a restricted area where the factions live; for the first time the principal victims have been law-abiding people, who have been shot down, not for political or sectarian reasons, but in wantonness. The lawless element over a wide area is being drawn into the conflict, while those who have hitherto held aloof from battles are gradually but surely coming to the conclusion that they must take up weapons.

"The proceedings at Derry possess every element of civil war without any interference worthy of the name from the forces which the government is supposed to control.

"The descent of Sinn Féiners en masse from the northwest, as it has preceded by a large movement in Ulster, either of which seems possible at any time, will immediately precipitate matters in such a way that the military forces may be engulfed.

"Unionists are said to be pouring into the city bent on vengeance, but there is also an exodus of people from the city by road and train. It is reported that artillery has arrived."

## Retaliation of Hungary

Hungary Has Begun an Energetic  
Counter-Boycott Against  
Austria

VIENNA.—In retaliation for the international transport boycott against Hungary, started on Monday, Hungary has begun an energetic counter-boycott against Austria, whose women are taking an aggressive part in the action instituted by the international organization in protest against the alleged Hungarian prosecution of working elements.

Freight and passenger service on the railways and communication by river have been cut off by Hungary. Food barges on the way up the Danube from countries to the East were stopped in Hungarian waters.

In pursuance of international boycott traffic in the direction of Hungary remains totally suspended. Trains from Vienna for Hungary are being held up although they were loaded with passengers ready for the trip. It is reported that Hungary has proposed that leaders of the boycott meet in Vienna to discuss the calling off of the international boycott.

## Dispute Referred to League

Sweden and Finland Should Arbitrate  
Aland Isles Issue

LONDON.—The London "Times" announces it has reason to believe that representations have been addressed to the Swedish and Finnish governments on behalf of the allied and associated powers to the effect that Sweden and Finland should refer the question of sovereignty of the Aland Islands to the League of Nations.

Sweden desires a plebiscite in the Aland Islands, which are situated in the Baltic between Finland and Sweden, claiming the majority of the population is of Swedish origin. Finland, however, is holding out against separation of the Archipelago from Finland on the ground that they are more nearly connected with the Finnish mainland and are definitely divided from Sweden.

## Would Recognize Soviet

English Labor Party Adopt Resolution  
Demanding Recognition  
Of Russia

SPARBOURGH, Eng.—The twentieth annual conference of the Labor party has adopted a resolution demanding recognition of the soviet government of Russia.

An amendment proposed by Ernest Bevin, of the Dock Workers' Union, favored the creation of a labor commission for an investigation of conditions on the continent.

The resolution and the amendment were adopted after the conference had been addressed by Lieut.-Colonel L. H. H. Malone, member of parliament for Leyton, and Mr. Bevin.

## Wireless Strike Called Off

LONDON.—The strike of wireless operators which threatened to bring shipping activities to a virtual standstill, has been called off. This action was taken as a consequence of meetings of the association of Wireless Telegraphists recently held at London Liverpool and other parts. The wireless leaders declare they have secured guarantees of fair treatment.

## Appointment of Prince Arthur

Controversy Postponed Regarding  
Matter of the Governor-  
Generalship

LONDON.—The Daily Chronicle remarks on the appointment of Prince Arthur of Connaught as the governor of South Africa, that it postpones for a moment the controversy in which many dominion statesmen, including the present South African premier, are involved as to whether the appointment of an Englishman as governor-general is consistent with the claim of equal partnership.

"This point might sound rather theoretic in view of the great practical services rendered, for example, in South Africa by such governors as Lords Selborne and Buxton, but there is no doubt that it is strongly felt and seriously urged," says the Chronicle.

The Chronicle adds that the Duke of Connaught was the most popular governor Canada ever had. The prince, therefore, will say for South Africa with this fine example in front of him.

## Period of Inflation Ended

LONDON.—The "Times" financial editor, in reviewing the Canadian banking expansion, says that it is clear conditions in Canada have much in common with those on this side. The period of inflation has ended and it would be unwise to anticipate a continuance of rate expansion recorded in the past few years.

## Coal Shortage in Montreal

Montreal.—The coal situation in the vicinity of Montreal is becoming serious, and it is highly probable that before long many plants will be compelled to close down on account of this shortage.

## NEWS OF THE PROVINCES

### SASKATCHEWAN

#### Anti-Grasshopper Campaign

J. F. Booth, chief director of the anti-grasshopper campaign, reports that outbreaks have occurred in several new districts in Saskatchewan, but the protective measures of poison dopes has worked wonders among the pest. Mr. Booth advised that the poisoned dopes should be spread as thinly as possible because it takes but very little of it to kill the hoppers.

#### Importing Dairy Cows

A. J. Clark, of the Saskatchewan livestock branch, Department of Agriculture, is at present buying dairy cows which will be sold to Saskatchewan farmers at cost price. The livestock branch will spend \$10,000 on dairy cows, which will be brought here to form the nucleus of several new dairy herds.

#### Annual Farm Boys' Camp

Forty-one districts have already entered teams of five boys to take part in the annual farm boys' camp at the Regina exhibition. The boys will be given practical demonstrations as to pasturing, and will be looking after the camp at Saskatoon in connection with the annual summer fair at the university.

### ALBERTA

#### Protect Wild Birds

Seven bird sanctuaries have been established in Alberta. They are in the neighborhood of Many Lakes, Birch Lake, Padowki Lake, Buffalo Lake, Miquelon Lake, Ministik Lake, Lac La Biche. The aim is to protect the chief breeding areas of wild birds.

#### Greater Dividends

Greater dividends in Southern Alberta will be paid by the investment of \$20,000,000 in irrigation projects than any other investments, so C. A. Magrath, chairman of the Canadian section of the International Waterways Commission, declared in a statement.

#### Too Much Curriculum

Throughout Alberta there is a general feeling that only among educationists, but among business men that the formal term and examinations in the schools should be abandoned so as to give a rest to the mental and nervous systems of the pupils, and the Edmonton Board of Trade has even gone so far as to adopt a resolution declaring that these examinations are not a good influence, and that there is too much curriculum in the public schools of the city.

### MANITOBA

Auction Sale of Pure Bred Cattle  
Brandon.—There will be two important auction sales of purebred cattle at the Provincial Summer Fair, at Brandon, this year. Both will be held on the same day, namely, July 23.

Sabbath Breaching Complaint  
Many complaints of Sabbath breaching throughout the country have been received by Commissioner J. G. Rattry, of the Manitoba provincial police. It is stated that in many districts stores are remaining open on Sunday and farmers are working. Steps will be immediately taken to put a stop to these practices, the commissioner announced.

#### Wheat Headed Out

Brandon.—Seventy acres of wheat in the head may be seen on the farm of H. L. Patmore, south of Brandon. The stalks are about 21 inches long and there is promise of a heavy yield, as the plants are well stooled out. The wheat is of the Kulnaka variety, and was sown on April 20.

### BRITISH COLUMBIA

Record Bag of Big Game  
J. W. French, big game hunter from Eastern Canada, reached Kamloops recently with a record bag comprising nine grizzlies and three black bears, after a six weeks' hunt north of Revelstoke and Shuswap.

Abolish Daylight Saving  
Victoria, B. C.—After a two-days' trial of daylight saving the city council has decided to revert to standard time.

## Will Not Increase Indemnities

Proposal to Raise Amount to \$4,000  
Per Session Has Failed

OTTAWA.—The proposal to increase the indemnities to members of the house of commons from \$2,500 to \$4,000 per session failed to receive the support of the government in the house of commons after nearly a score of members of all parties had expressed themselves in favor of it. The speech of the prime minister, in which he admitted that many members were representing constituencies at a financial sacrifice and intimated that the government was not prepared to take any action for increased indemnities, was not received favorably by the house.

Sir Robert emphasized the fact that the country regarded such an increase at the present time unfavorably. As the prime minister clearly intimated that the government has no intention of bringing in a bill or otherwise providing money for increased indemnities, it would seem that the matter is closed for the present session. A private member has no power to introduce a bill involving a money vote and the government apparently refuses to do so.

## Tried Them and Now Is Satisfied

MADAM LANDRY TELLS WHAT  
DODD'S KIDNEY PILLS  
DID FOR HER

New Brunswick Lady Who Had  
Tried Other Medicines Claims She  
Found the Remedy She Was Looking  
For in Dodd's Kidney Pills.

St. John, N.B., June 25th. (Special.)—Among the many women who claim they owe their health to Dodd's Kidney Pills, there is one more enthusiastic than Madam Bruno D. Landry, a highly esteemed resident here.

"It is with great pleasure that I recommend Dodd's Kidney Pills," Madam Landry says. "I was ill for a long time and nothing I took relieved me. I read often of the good Dodd's Kidney Pills did for others, but I had not much faith in them.

"At last, after having tried a lot of other medicines, I decided to give Dodd's Kidney Pills a trial. The result has brought me perfect health. All those who suffer from kidney disease will use Dodd's Kidney Pills; they will find them good and soon be convinced that I have been, that they are the remedy for kidney disease."

Dodd's Kidney Pills are no faith cure. You don't have to believe in them to find them the relief you are looking for. But if you ask your doctor, they will tell you of their own experiences of the work Dodd's Kidney Pills have done.

## Terrible Scenes in Londonderry

Streets Swept By a Murderous Fire  
For Sixteen Hours

LONDONDERRY.—Scenes of the most terrible description were enacted here when the streets were swept by a murderous fire for sixteen hours continuously. One man was killed and ten dangerously wounded in one section of the city. Several bodies are reported to be lying in Bishop street. Among the wounded was a young girl and those who suffered slight injuries cannot be estimated.

Shipping was indulged in on a large scale and there was indescribable firing of rifles and revolvers all over the city. The principal conflict took place in Bishop street, where there was a large concentration of Sinn Féiners in the neighborhood of St. Columba's Catholic college and Nazareth home. Sandbags were thrown up, from which a strong fire was directed at the Unionists. There was a vigorous exchange of fire and many casualties resulted on both sides.

#### Continue Hague Tribunal

The Hague.—The discussions of the commission of jurists strengthened the theory that the existing Hague arbitration tribunal will not be abolished, a high court of nations is formed, but on the contrary that the tribunal will not only function as formerly, but have a considerable part in the selection of the judges for the high court.

#### Japanese Recognition

LONDON.—A wireless dispatch received from Moscow says Japan has agreed to recognize the far eastern Russian republic on condition that it shall have complete political independence of the Russian Soviet government and that it guarantees democratic form of government.

## SITUATION IN NEAR EAST IS NOW SERIOUS

War Office May Appeal For Reservists  
to Strengthen the  
Army Reserve

LONDON.—The war office intends almost immediately to appeal for reservists, according to the Daily Mail. The newspapers say it probably will ask for discharged soldiers and men who served for at least one year during the war and have not since joined the Territorials to enlist in the army reserve.

"The decision," the Daily Mail continues, "is due to the serious view taken by the military authorities on the situation in the Near East. The chief factor in that situation is the rapid spread of the Turkish Nationalists, under Kemal Pasha, the Turkish Nationalist commander."

LONDON.—The army estimates coming up again this autumn give the commons an opportunity of discussing at length British policy and operations abroad, special attention being directed to expenditure in Mesopotamia. Former premier Asquith led the attack by moving a reduction in the vote. He declared there was no legal right for a British fleet in Mesopotamia and urged the withdrawal of troops.

Premier Lloyd George, defending the vote, pointed out that Britain had responsibility for establishing order and good government in Mesopotamia, and if they were to withdraw now they would later have to reconsider things. The amendment was defeated.

## Handed Disarmament Note

Germany Will be Told How to Avoid  
Further Occupation

PARIS.—The note to Germany regarding disarmament prepared by the council of ambassadors and approved by the allied premiers at the Boulogne conference was handed to the German peace delegation here.

The communication probably will be followed by another note going further into details and telling Germany exactly what she must do to avoid further military occupation of German territory.

#### Failure of Bolshevism

LONDON.—A Reuters dispatch from Stockholm quotes Mrs. Philip Snowden and Dr. Guest, members of the British Labor Delegation who went to investigate conditions in Russia, and who have arrived in Stockholm on their return journey, as declaring that in their view, soviet Russia could teach western Europe nothing. Snowden, they predicted, would prevail in Great Britain long before it would in Russia, the message adds.

## SHORT OF BREATH

Could Hardly Walk  
Without Resting.

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-over feeling of oppression and anxiety.

On the first sign of the heart becoming weak, the heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N.S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting. I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Place a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## AROUND THE TOWN

Westcott Sports, Wednesday, July 7th.

The Seventh Day Adventists will commence their big annual camp meeting at Calgary on July 15th, to last to the 25th.

A little girl arrived at the Cottage on July 4. She will make her home for the present with Mr. and Mrs. Rollier.

Tom Stark, a former Didsburyite and brother-in-law of Jim McGhee, now of Drumheller, was a visitor in town on Tuesday.

A donation of \$50, proceeds of dances, held in the Spring side school house, has been given to the Calgary G.W.N.A. fund for their club rooms in Calgary.

The members of King Hiram Lodge, A.F. & A.M., will attend divine service on Sunday afternoon next at 2:30. Rev. Wylie Smith will conduct the services. All members and visiting brothers are requested to attend.

The camp meeting is in full swing. The interest is increasing. Come for the remaining few days; bring your friends with you. Mr. Rich, the evangelist, is faithfully preaching the gospel. You should be present to hear his messages, which stir your heart and grip your conscience. You will be a better man or woman if you hear and heed his admonition. Everybody come. Be, and get a blessing.

A. W. Forgie has been appointed Boys' Work secretary for Alberta. Mr. Forgie, who was one of the original six "Y" secretaries to go overseas with the first contingent, will also supervise the town and country department. He is located in Calgary and will devote his whole time to the plans for the welfare of town and country boys in the province. He is an expert in work for boys and has well earned the title of "Big Brother."

### Postal Rates Raised

According to an amendment to the Post Office Act passed during the recent session of parliament the registration fee on letters and other matter mailed in Canada is fixed at ten cents per each letter or article.
